Dion Morrow,

This email is to serve as a formal Demand Notice and Legal Warning regarding your direct involvement in a coordinated billing conspiracy, deceptive commercial practices, and subsequent retaliatory cover-up.

You should beware that formal judicial proceedings have been initiated against you and your organization In Clark County's Eighth Judicial District. The small claims action has also been amended and you will be served with all the documents shortly. You are now officially a defendant in both actions.

Your bad-faith ultimatums, unbacked takedown demands, and refusal to provide a factual or legal basis for the disputed May 2025 "Red Hot Deal Days" transaction have failed to suppress the truth.

Take notice that unless a comprehensive and permanent administrative resolution is executed within **twenty-four (24) hours** of this transmission, formal consumer fraud, civil rights, and deceptive business practice referrals will be filed immediately against you and the corporate entity with the regulatory agencies listed on the case clearinghouse website. I intend to seek criminal referrals against you personally.

Your attempts to escape accountability by claiming no such promotion existed have been completely dismantled by public advertising records. Visit <https://verizon.vegas> immediately to review the active court pleadings, the forensic analysis of the indicators of fraud, and the exact evidentiary record detailing your personal liability in this case.

This is your final opportunity to resolve this matter before public and governmental enforcement proceeds concurrently with the active litigation.

Sincerely,

Diinele Dinaali

(310) 346-3635
